4 ventures

RADIOLOGY & DIAGNOSTIC BUSINESSES FOUNDED / CO-FOUNDED

BOARD-LEVEL VALUE

- **Radiology operations:** service-line design, workflow, turnaround, quality and governance.
- **Investment decisions:** modality business cases, feasibility, due diligence and expansion strategy.
- **Medical AI:** responsible adoption, vendor evaluation and clinical-workflow integration.
- **Clinical depth:** prostate MRI, renal-transplant imaging, CT, MRI, ultrasound and Doppler.

SELECTED OPERATING OUTCOMES

Elnokhba Radiology: two branches; GE 32-detector CT, 1.5T MRI, three ultrasound units and two echocardiography units; approximately 300 cases daily; urgent reporting within one hour and routine reporting within two hours.

Elnokhba Diagnostic Hub: three branches spanning laboratory, 4D pregnancy ultrasound, neurophysiology and five specialist clinics; approximately 200 cases daily.

Operating figures are management-reported as of July 2026 and are not presented as independently audited metrics.

CREDENTIALS

- MD / PhD in Diagnostic Radiology — Aswan University
- European Diploma of Radiology (EDiR)
- MSc Diagnostic Radiology — Assiut University
- Hospital Management Diploma — The American University in Cairo
- AI in Healthcare Diploma — AUC
- MBA Candidate — AUC School of Business

ACADEMIC & INSTITUTIONAL EXPERIENCE

Lecturer of Radiology at Aswan University, with clinical, teaching, research or management experience across Assiut, Mansoura and Cairo institutions; Urology & Nephrology Center Mansoura; Gastrointestinal Surgery Center Mansoura; Magdi Yacoub Heart Foundation; oncology institutes; police hospitals; health-insurance services and private diagnostic ventures.
